**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please make it easier for me, in the heart of SF's mission district, to get the same high-speed internet offerings as a consumer that big-tek firms like Apple, Google, and others enjoy as a large corporation.

In particular, please allow SONIC.net to deploy fiber-to-the-home solutions in the 94110 zip code in the next six months. Mico-trenching, macro-trenching, I don't care, the street is already a mess due to the sewer/water improvements, the ongoing changes in electrical lines and streetlights, and various topological schemes to include more bikes and electric scooters.

I choose sonic.net because they are endorsed by the EFF and care about net neutrality and a better internet. Unlike the FCC, apparently.

Benjamin De Kosnik
